

## Engineering Success by Tapping the Talent Pipeline

Affinity Management Group provides contract and direct hire staffing solutions to the exploration and production, pipeline, refining, and petrochemical sectors of the oil and gas industry.

By leveraging our alliance with our parent company, Audubon, we are able to recruit, service, and support highly motivated, experienced, talented technical personnel. Let us help you achieve engineering success by meeting your immediate demands during all phases of project execution.

### Why Choose Affinity?

We specialize in the oil and gas industry, and are strategically aligned with engineering service companies. We have international placement capabilities, and offer flexibility in contract placement solutions. We source for candidates with your needs in mind.

### Contact Us

#### Engineering and Technical

- Project Management/engineering
- Automation/control systems engineering
- Corrosion/costing engineering
- Instrumentation/electrical engineering
- Pipeline engineering
- Piping/pipe stress engineering
- Stationary engineering
- Systems engineering
- Offshore engineering
- Subsea marine engineering
- Naval architecture
- Drilling/completions engineering
- Facilities/mechanical engineering
- Process/chemical engineering
- Production engineering
- Geotechnical
- Drafting/design

#### Management and Support

- Construction management
- Operations management
- Supply chain management
- Procurement
- Cost/estimating
- HSE/safety
- Planning/scheduling
- Sales/business development
- Accounting/finance
- Human resources
- IT/communications
